EGMK

Elkon Uranium Project Pre-Feasibility Report

DISTRIBUTION

Section 07 - Tailings Management

Table of Contents

Disclaimer	ii
1. Introduction	1
1.1 Reference Documents	1
2. TSF Site Selection	2
2.1 Base data for analysis	2
2.2 Potential Locations.....	2
2.2.1 Ken-Saala Creek.....	3
2.2.2 Dzhelinda River.....	4
2.2.3 Hillside dam.....	4
2.3 Comparison of Options	5
2.4 Preferred Option	6
3. TSF Design	6
3.1 Thickened Tailings Deposition Method.....	6
3.2 Design Inputs	8
3.3 Volumetric Requirements	8
3.4 Seepage and Groundwater.....	9
3.5 Embankment Design	11
3.6 Tailings Delivery System	12
3.6.1 Tailings delivery system to paste backfill plants	13
3.6.2 Tailings delivery to TSF	14
3.7 Tailings Deposition Strategy	14
3.8 Decant Recovery Water System.....	15
3.9 Surface Water Management.....	17
4. Monitoring	18
5. TSF Decommissioning	19
6. Additional Requirements	19
7. Opportunities	20
Appendix 07-01 Tailings Storage Facility Basis of Design.....	1
Appendix 07-02 Tailings Storage Facility Site Selection	1
Appendix 07-03 Process Mass Balance.....	1
Appendix 07-04 TSF General Arrangement.....	1
Appendix 07-05 TSF Typical Sections	1
Appendix 07-06 Typical Embankment Section	1
Appendix 07-07 Tailings Pipelines Arrangement	1

Appendix 07-08 Tailing Pipelines Typical Sections	1
Appendix 07-09 Diversion Channel Sections and Profiles	1
