Technical drawing of a rectangular reinforced concrete slab. The drawing shows the layout of reinforcement bars (top and bottom) and the placement of stirrups. Key dimensions and details include:

- Overall Dimensions:**
 - Length: 3900_{-3}
 - Width: 160
- Reinforcement Details:**
 - Top reinforcement: $86 \text{ mm} \cdot \phi 3,6$
 - Bottom reinforcement: $60 \text{ mm} \cdot \phi 6$
 - Stirrups: $s0,6^*$
- Dimensions and Spacing:**
 - Distance from left edge to first vertical reinforcement line: 6
 - Distance between vertical reinforcement lines: $12 \pm 0,2$
 - Distance between horizontal reinforcement lines: $74 \pm 0,2$
 - Distance between vertical reinforcement lines (middle section): $12 \pm 0,2$
 - Distance between horizontal reinforcement lines (middle section): 175
 - Distance from right edge to last vertical reinforcement line: $15 \pm 0,2$
 - Distance from right edge to last horizontal reinforcement line: 6
 - Distance from right edge to last vertical reinforcement line (bottom): 7
 - Distance from right edge to last horizontal reinforcement line (bottom): $148 \pm 0,2$
- Calculation:**
 - $21 \times 175 = 3675$

- 1.* Размер для справок.
2. Технические требования по ОСТ 4ГО.070.014.
